Subject index

- Advanced software, housing companies, construction industry, systems analysis, 109
- Analytical hierarchy process, fire safety evaluation, points schemes, decision making, fire safety, Delphi technique, 147
- Australian case studies, project management, project teams, project performance, 159
- Automation, construction, equipment, excavation, material handling, prefabrication, robot, tunnelling, 89
- Bill of quantities, civil engineering, computation, contracts, estimates, financial control, simulation, 31
- Bricklayers, motivators, demotivators, motivation, productivity, 301
- Budgeting, procurement, time, development appraisal, expert system, strategic planning of construction projects, 285
- Building contracting, information systems, information management, structured systems analysis, tendering, 399
- Buildings, construction planning, cranes, expert systems, 179
- Buildings, depreciation, capital, plant, vehicles, 63
- Capital, plant, vehicles, buildings, depreciation, 63
- Civil engineering, computation, contracts, estimates, financial control, simulation, bill of quantities, 31
- Clients, professional power and authority, professions, professionalism, quantity surveying, 191
- Computation, contracts, estimates, financial control, simulation, bill of quantities, civil engineering, 31
- Concession, financing, risk, security, guarantee, toll, 315
- Construction, contracts, human, management, research, underdevelopment, education, 219
- Construction, equipment, excavation, material handling, prefabrication, robot, tunnelling, automation, 89
- Construction, input, cost estimating, project management, resource management, productivity, 49
- Construction, resources, cost, schedule, optimization, 135
- Construction, systems analysis, information technology, management, research methods, 341
- Construction automation, robotics potential of construction tasks, human performance, 329
- Construction industry, demand analysis, 249
- Construction industry, international construction, construction management, Turkey, 77
- Construction industry, systems analysis, advanced software, housing companies, 109
- Construction innovation, tunnelling construction, plastic liners, 3
- Construction management, information, industry structure, integration, 205
- Construction management, management of trade contractors, procurement methods, 385
- Construction management, Turkey, construction industry, international construction, 77

- Construction planning, cranes, expert systems, buildings, 179
- Construction technology, international comparisons, input-output analysis, 233
- Contracts, estimates, financial control, simulation, bill of quantities, civil engineering, computation, 31
- Contracts, human, management, research underdevelopment, education, construction, 219
- Contracts, site co-ordination, training, research and development, design competition, specialist contractors, design, 259
- Cost, schedule, optimization, construction, resources, 135
- Cost estimating, project management, resource management, productivity, construction, input, 49
- Cranes, expert systems, buildings, construction planning, 179
- Current practices, production planning, precast concrete, 365
- Decision making, fire safety, Delphi technique, analytical hierarchy process, fire safety evaluation, points schemes, 147
- Delphi technique, analytical hierarchy process, fire safety evaluation, points schemes, decision making, fire safety, 147
- Demand analysis, construction industry, 249
- Demotivators, motivation, productivity, bricklayers, motivators, 301
- Depreciation, capital, plant, vehicles, buildings, 63
- Design, contracts, site co-ordination, training, research and development, design competition, specialist contractors, 259
- Design competition, specialist contractors, design, contracts, site co-ordination, training, research and development, 259
- Development appraisal, expert systems, strategic planning of construction projects, budgeting, procurement, time, 285
- Economic order, quality, quality assurance, professionalism, occupational order, 13
- Education, construction, contracts, human, management, research, underdevelopment, 219
- Equipment, excavation, material handling, prefabrication, robot, tunnelling, automation, construction, 89
- Estimates, financial control, simulation, bill of quantities, civil engineering, computation, contracts, 31
- Excavation, material handling, prefabrication, robot, tunnelling, automation, construction, equipment, 89
- Expert systems, strategic planning of construction projects, budgeting, procurement, time, development appraisal, 285
- Expert systems, buildings, construction planning, cranes, 179
- Exports, labour costs, subcontracting, Turkey, internationalization, 415
- Financial control, simulation, bill of quantities, civil engineering, computation, contracts, estimates, 31
- Financing, risk, security, guarantee, toll, concession, 315
- Fire safety, Delphi technique, analytical hierarchy process, fire safety evaluation, points schemes, decision making, 147
- Fire safety evaluation, points schemes, decision making, fire safety, Delphi technique, analytical hierarchy process, 147
- Guarantee, toll, concession, financing, risk, security, 315
- Housing companies, construction industry, systems analysis, advanced software, 109
- Human, management, research underdevelopment, education, construction, contracts, 219
- Human performance, construction automation, robotics, potential of construction tasks, 329
- Industry structure, integration, construction management, information, 205
- Information, industry structure, integration, construction, management, 205

- Information management, structured systems analysis, tendering, building contracting, information systems, 399
- Information systems, information management, structured systems analysis, tendering, building contracting, 399
- Information technology, management, research methods, construction, systems analysis, 341
- Input, cost estimating, project management, resource management, productivity, construction, 49
- Input-output analysis, construction technology, international comparisons, 233
- Integration, construction management, information, industry structure, 205
- International comparisons, input-output analysis, construction technology, 233
- International construction, construction management, Turkey, construction industry, 77
- Internationalization, exports, labour costs, subcontracting, Turkey, 415
- Labour costs, subcontracting, Turkey, internationalization, exports, 415
- Management, research, underdevelopment, education, construction, contracts, human, 219
- Management, research methods, construction, systems analysis, information technology, 341
- Management of trade contractors, procurement methods, construction management, 385
- Material handling, prefabrication, robot, tunnelling, automation, construction, equipment, excavation, 89
- Motivation, productivity, bricklayers, motivators, demotivators, 301
- Motivators, demotivators, motivation, productivity, bricklayers, 301
- Occupational order, economic order, quality, quality assurance, professionalism, 13
- Optimization, construction, resources, cost, schedule, 135
- Plant, vehicles, buildings, depreciation, capital, 63
- Plastic liners, construction innovation, tunnelling construction, 3
- Points schemes, decision making, fire safety, Delphi technique, analytical hierarchy process, fire safety evaluation, 147
- Precast concrete, current practices, production planning, 365
- Prefabrication, robot, tunnelling, automation, construction, equipment, excavation, material handling, 89
- Procurement, time, development appraisal, expert systems, strategic planning of construction projects, budgeting, 285
- Procurement methods, construction management, management of trade contractors, 385
- Production planning, precast concrete, current practices, 365
- Productivity, bricklayers, motivators, demotivators, motivation, 301
- Productivity, construction, input, cost estimating, project management, resource management, 49
- Professionalism, occupational order, economic order, quality, quality assurance, 13
- Professionalism, quantity surveying, clients, professional power and authority, professions, 191
- Professional power and authority, professions, professionalism, quantity surveying, clients, 191
- Professions, professionalism, quantity surveying, clients, professional power and authority, 191
- Project management, project teams, project performance, Australian case studies, 159
- Project management, resource management, productivity, construction, input, cost estimating, 49
- Project performance, Australian case studies, project management, project teams, 159

- Project teams, project performance, Australian case studies, project management, 159
- Quality, quality assurance, professionalism, occupational order, economic order, 13
- Quality assurance, professionalism, occupational order, economic order, quality, 13
- Quantity surveying, clients, professional power and authority, professions, professionalism, 191
- Research, underdevelopment, education, construction, contracts, human, management, 219
- Research and development, design competition, specialist contractors, design, contracts, site co-ordination, training, 259
- Research methods, construction, systems analysis, information technology, management, 341
- Resource management, productivity, construction, input, cost estimating, project management, 49
- Resources, cost, schedule, optimization, construction, 135
- Risk, security, guarantee, toll, concession, financing, 315
- Robot, tunnelling, automation, construction, equipment, excavation, material handling, prefabrication, 89
- Robotics potential of construction tasks, human performance, construction automation, 329
- Schedule, optimization, construction, resources, cost, 135
- Security, guarantee, toll, concession, financing, risk, 315
- Simulation, bill of quantities, civil engineering, computation, contracts, estimates, financial control, 31
- Site co-ordination, training, research and development, design competition, specialist contractors, design, contracts, 259
- Specialist contractors, design, contracts, site co-ordination, training, research and development, design competition, 259
- Strategic planning of construction projects, budgeting, procurement, time, development appraisal, expert systems, 285
- Structured systems analysis, tendering, building contracting, information systems, information management, 399
- Subcontracting, Turkey, internationalization, exports, labour costs, 415
- Systems analysis, advanced software, housing companies, construction industry, 109
- Systems analysis, information technology, management, research methods, construction, 341
- Tendering, building contracting, information systems, information management, structured systems analysis, 399
- Time, development appraisal, expert systems, strategic planning of construction projects, budgeting, procurement, 285
- Toll, concession, financing, risk, security, guarantee, 315
- Training, research and development, design competition, specialist contractors, design, contracts, site co-ordination, 259
- Tunnelling, automation, construction, equipment, excavation, material handling, prefabrication, robot, 89
- Tunnelling construction, plastic liners, construction innovation, 3
- Turkey, construction industry, international construction, construction management, 77
- Turkey, internationalization, exports, labour costs, subcontracting, 415
- Underdevelopment, education, construction, contracts, human, management, research, 219
- Vehicles, buildings, depreciation, capital, plant, 63
